SHARMAINE BAJALA

SOFTWARE DEVELOPER

Montreal, QC • 514-260-1167 • sj.bajala@gmail.com • www.linkedin.com/in/sharmainebajala

PROFESSIONAL PROFILE

I have undertaken studies in programming and internet technologies in which I gained knowledge and experience in developing back-end and front-end applications, web applications as well as android mobile applications. I am an optimistic, open-minded, and self-effacing person who values personal development, cooperation, and impartiality. My resilience and self-motivation enable me to work through obstacles and challenges I encounter.

EDUCATION

Programming and Internet Technologies   2021 –

Attestation of College Studies

Institut supérieur d'informatique, Montreal

PROJECTS

Library Application – Java

Application that allows users to borrow and/or return books from library. Admin users can view library members, modify members' information and delete members.
Technical skills:
- Use of IntelliJ IDE.
- Use of RDBMS (Microsoft SQL Server) for back-end.
- Use of HTML and CSS for front-end.

Tic Tac Toe – Java

Application that allows users to play tic tac toe with another player locally.
Technical skills:
- Use of MVC pattern.
- Use of Eclipse IDE.

For this project, I worked on the controller and model (board).

Reading list tracker - Android Mobile

Mobile application that allows users to track progress of books in their reading list. Users can add, modify, and delete books from their reading lists. Users can equally view books that are completed, in progress, or not started.
Technical skills:
- Use of Android studio IDE.
- Use of Java for back-end.
- Use of XML for front-end.

OTHER RELEVANT EXPERIENCE

Lab Technician   2014 –
Uniprix Kalfane, Montreal
- Prepare medications for patients' blister packs.
- Operate and maintain SynMed machine.
- Monitor inventory and order medications.
- Ensure validity of blister packs.
